• ABOUT US

Società Italiana di Monitoraggio S.p.A. (SIM) was established in 1985 by a group of relevant Financial Institutions.

SIM is specialised in monitoring and evaluation of public and private development programmes and investment projects.

SIM's main customers are local, national and international governmental Agencies. In a merger operation in 2002 SIM S.p.A. acquired GICO S.p.A.. It has added an important background that it has allowed the SIM S.p.A. to not only specialize in the field of the M&E, but also in the field of engineering and institutional strengthening.

The Company mission is to contribute and increase the usefulness of the institutions and to promote the civil society development. SIM S.p.A. is active in international technical assistance programmes supporting Central and Local Administrations, Public Agencies and Local Communities. The Company has thorough knowledge, expertise and contacts enabling it to be veritable "bridge" between different cultures experiences and know-how.

The Company's capital is Euro 900.000, fully paid up and subscribed by the shareholders.

The SIM S.p.A.- head office in Rome serves as the main point of contact for Clients and Partners, and provides overall directions to the overseas branches in Afghanistan, Albania, Kazakhstan and Peru.

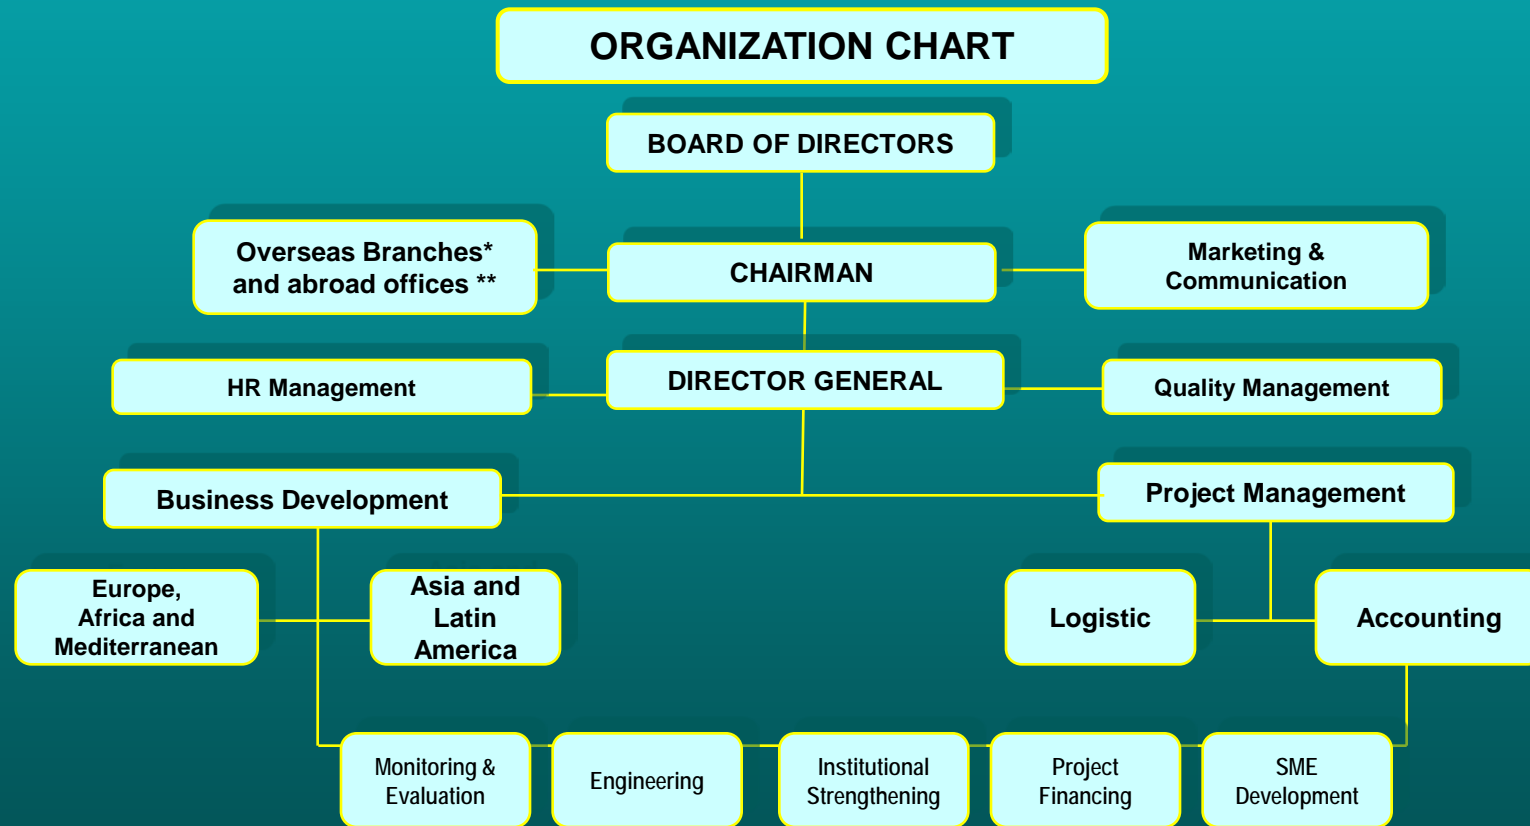

SIM S.p.A. is a Quality Company as per UNI EN ISO: 9001: 2008 Quality Austria and IQNet.

Since 2006 SIM S.p.A. has assumed the Social Responsibility Code and Ethical Code in accordance to D.Lgs. 231/2001.

The Society has been a charter member of the European Evaluation Society (1994).

SIM's shareholders are: BANCA MONTE PASCHI DI SIENA S.p.A., UNICREDIT MERCHANT S.p.A., Mr. Ruggero BALDI, Mr. Massimo MARINO.

The Company data-bank includes over 4,500 professionals. The experts cover the broad range of skills required in all areas of operation. Key criteria for cooperation are high-level technical skills and proven cultural sensitivity. Experts as needed by the projects are selected mostly among all the professionals registered in the data-bank, which are periodically updated.
